

## Year 2 Homework

3.5.19

Dear Parents,

This week in English, we've written non-chronological reports about blue whales. In preparation for writing our reports, we researched lots of facts about the mammal and then created sub-headings based on the facts that we had collected. When writing our reports, we worked hard to include a variety of punctuation such as question and exclamation marks, apostrophes and conjunctions (because, but, so, which etc). Now that we have finished writing we will be sending some to Greenpeace so that they can use them to teach other children.

In Maths, we've focussed on missing number problems, mainly using addition and subtraction eg.  $? - 14 = 28$ . (To solve this problem we would do the inverse:  $28 + 14$ .) This is often one of the most challenging skills for Year 2 children, and having lots of practise of number bonds and number families really helps.

Thanks for continued support,

Mrs Fitzgerald , Miss Murphy and Miss Williams

### For Your Information

Next week, Year 2 will be starting some "quiz" booklets. Our brains work best when we are well-hydrated, so please ensure that your child has a named water bottle in school.

**English:** Silly Sentences Chat Challenge: Make up silly sentences using conjunctions.

Eg. because, which, that, so, but, when, as, although etc

**Maths:** Play Guess My Shape.

Eg. It is a 3D solid.

It has 5 faces.

2 of the faces are triangles.

It has 6 vertices.

What is it? (Triangular prism)
