COVID-19 Local Testing Site (LTS)

Over the last few weeks, three new semi-permanent walk-through testing sites have opened in Birkenhead,Bebington&Liscard.

Each one of these local testing sites has 12 testing bays and capacity to deliver 288 tests per day.

Based in the heart of our town centres, they are more accessible to the public.

All sites in Wirral are accessible via 'appointment only'.

People are also being asked to only get tested if they are experiencing COVID-19 symptoms.

Wirral Council have quickly addressed the need for more testing, but it is vitally important these tests are kept for the people who need them.

Locations, dates and booking information is available at www.wirral.gov.uk/test

Please note: Priority testing for symptomatic key workers, including Health and Social Care staff, is available at Bidston testing centre and is bookable via the local authority website.
