

Foundation 2 Homework 10.5.18

This week we have been learning about animals that live under the sea. We have made collages of sea creatures using different materials. We have also been learning some new tricky words: have, like, come and some.

In Literacy we have written fact files about sea creatures, writing sentences about all the interesting information we have discovered this week. We are continuing to practise forming all our letters correctly, and using full stops, finger spaces and capital letters.

In Maths we have been learning all about the number 19. We have been working out 1 less and 1 more than a number up to 20. We have discovered that the number 19 can be made up in different ways.

Please can you remember to send in your child's library book each week so it can be changed?

Activities For Home

- Can you write a sentence about your favourite sea creature? Please remember to use capital letters, finger spaces, full stops and practise forming all our letters correctly.
- Can you find 19 objects at home or in your garden? Can you split the items into two groups? How many are in each group?

Thank you for your support.

Mrs Bancroft, Mrs Lucan and Miss Wilson.
