

## Foundation 2 Homework

14.2.20

This week we have concluded our topic on The Gingerbread Man. We have used the knowledge that we have gained about the story to retell and then write our own stories. We have used paint and various collage materials to make characters from the story. We also investigated which material would be good to help the gingerbread man float across the river.

In Letters and Sounds we have learnt the tricky word **her** and we have learnt the new digraph **oo** as in **boot**. We have been reading and writing words and sentences using oo words e.g. boot, loop, pool.

In maths we have been learning about the number 15. We have counted 15 objects, used two ten frames to make 15 in different ways. We have also made 15 using two pieces of numicon for example

We ended our week with a gingerbread party. We baked our own gingerbread men, had ice lollies, played games and generally had lots of fun!

### Activities

- Please read your online book on Activelearn
- How many words can you think of that contain the oo digraph? Can you choose one of your words and write a sentence about it?
- Can you spot the number 15 during the holiday? Look at cars, bus stops, in shops, in restaurant menus, around your house etc. Can you take a photograph and upload it to Tapestry or draw a picture/write where you found the number in your homework book?

We hope you enjoy the half term break.
